Message from Honorary Chair

We express our warm welcome to all of attendants of the 13th International Conference on Internet (ICONI) that will be held from December 12~14, 2021, in the Masion Glad Jeju, Jeju Island, Korea.

Over the past 13 years, ICONI has increased its academic impact and influence in the area of Information Science, Computer Engineering and Internet Technology by bringing together international researchers from academia, industry, and government to exchange novel ideas, explore enabling technologies, discuss innovative designs, and share field trial experiences and lessons learned.

This year, ICONI 2021 again covers broad range of topics which are related with Internet technologies and applications such as Multimedia /Image Processing /HCI / Intelligent Systems & Database / Data Mining / Big Data / Mobile Object & IoT (Internet of Things) / Security & Privacy in Internet and mobile computing, Internet of Things, wireless communications. It is firmly believed that each paper to be presented will be a basis for further constructive discussion.

We would like to express our heartfelt gratitude to everyone who makes this conference successful. First of all, we are so grateful to all contributors who submit their valuable papers, review the papers, and chair the sessions. We also thank many sponsors for their enormous support. Our special thanks must go to the Keynote Speakers Dr. Cornelius Hellge from Fraunhofer Heinrich Hertz Institute, Germany and Dr. Jongwook Woo from California State University, LosAngeles, USA

Last, but not least, we deeply appreciate limitless devotion of Organizing Committee members. Without their contribution, this conference would not be realized.

We truly welcome you all to this beautiful Island and wish you pleasant and joyous stay in Jeju Island!

Message from Conference Chair

On behalf of the organizing committee of ICONI 2021 as well as on my own behalf, I welcome you to the 13th International Conference on Internet (ICONI). In particular, I sincerely thank you for participating in this international conference to present and discuss valuable research results even in the midst of the pandemic.

As you all know, COVID-19 has brought about many changes and challenges. Academic conferences seem to be no exception, as we are forced to hold conferences in a contactless environment. Despite these difficulties, we have been able to successfully plan for ICONI 2021, prioritizing safety measures. More than 157 papers have been submitted in 21 Internet-related fields, including mobile Internet computing, Internet security, Internet of Things (IoT), wireless and sensor networks and multimedia, image processing and Internet application management. Of these, more than 150 papers will be presented both online and offline. Moving forward, ICONI 2021 will be a leading example for Hybrid conferences.

I owe a great amount of gratitude to the organizing committee members and all contributors for the extraordinary work they have done in organizing this conference. Without their dedicated support, this event would never have been possible.

I wish you all a very pleasant time here in Jeju Island and a productive and successful conference.

Message from Program Chairs

It is a pleasure to welcome you to the 13th International Conference on Internet, 2021 (ICONI 2021) to be held in the Grand Ballroom, Masion Glad Jeju, Korea

Over the past 13 years, ICONI has grown to be the major international conference in Internet Technology area. The conference is organized as a set of 21 tracks in the Internet Technology area. ICONI continues the endeavor of high-quality, broad international participation in all areas of Internet Technology.

This year, 157 papers were accepted from 6 countries for consideration to the program committee. As a result, the selection process was highly competitive, and the result is a program of high-quality papers. All paper was assessed in a blind review, and each received at least two or three reviews.

The successful organization of ICONI has required the talents, dedication and time of many volunteers from Malaysia, USA, China, Pakistan, Vietnam and Rep. of Korea. Special gratitude and appreciation go to all of organizing committee members as they are primarily responsible for the conference.

We hope that you will find the conference both enjoyable and valuable, and also enjoy the architectural, cultural and natural beauty of Jeju island.

Jeju Island is one of the most popular tourist destinations in Korea and well situated for welcoming the ICONI 2021 participants from around the world.

Keynote Speakers

Keynote Speaker Dr. Cornelius Hellge

**Head of Multimedia Communications Group,
Fraunhofer Heinrich Hertz Institute, Germany**

Title: Interactive Volumetric Video Streaming over 5G

Abstract of the talk

Rendering high-quality volumetric video for mixed reality services on head-mounted displays is challenging due to the limited battery capacity of mobile devices. This becomes even more challenging when the volumetric elements can interact with the user and have to be animated to do so. Remote rendering moves the computational load to an edge cloud, but requires an extremely low latency streaming system to be transparent to the user. This talk will provide an overview of the components of a remote rendering streaming system, with a focus on the recently completed MPEG glTF extension for animatable volumetric video, user prediction for latency reduction below 40ms latency and ECN-based congestion control over 5G.

Keynote Speaker Dr. Jongwook Woo
